

e-Learning

Our one-on-one tutor led interactive online training goes at precisely the pace required by the individual. It provides an optimum learning experience and will help keep your business safe and compliant.

At a fraction of the cost and less management time than you would expect, our online training has the added bonus of minimal loss of productivity because it is really efficient and flexible.

Our Service

Every company needs a competent workforce behind them in order to truly flourish as an business.

A way to achieve this is through e-learning, however a majority of people don't want to sit in front of a screen for long periods of time struggling to extract information from words on a screen.

e-Learning is an easy and simple way to consume knowledge electronically, meaning no travel needed, all these courses can be completed from your place of work or the comfort of your own home. Unlike classroom courses, e-Learning courses can be carried out at your own convenience and paused and carried on at another point in time, leaving you in control of your learning.

Our e-Learning courses focus on how learners consume knowledge and the most effective way for attendees to feel involved and engaged. We do this by creating an interactive experience for our attendees, making them feel as if they are in a classroom.

We have over 100 CPD approved courses in 6 core areas:

- Business Skills
- Health and Safety
- Health and Social Care
- Hospitality
- Human Resources
- Mental Health and Wellbeing

Each course is priced at £20 + vat per license.

Buy 3 for £50 + vat
